Mostafa Mahmoud Osman Sdeak

AI & Machine Learning Engineer

01050615777 — mostafa.mahmoud.osman.sdeak@gmail.com
github.com/Mostafa-Mahmoud-Osman-Sdeak — linkedin.com/in/mostafa-mahmoud-osman-sdeak

Profile

AI & Machine Learning Engineer focused on developing practical Artificial Intelligence solutions using Python and modern Machine Learning techniques. Hands-on experience in data preprocessing, feature engineering, model training, evaluation, NLP, Generative AI, Large Language Models (LLMs), Prompt Engineering, and RAG. Experienced with Scikit-learn, Pandas, Streamlit, Git, and GitHub.

Education

The Egyptian E-Learning University (EELU) Egypt
Bachelor of Computer Science & Artificial Intelligence
Faculty of Computers and Information

Technical Skills

Programming: Python, SQL

Machine Learning: Supervised Learning, Unsupervised Learning, Regression, Classification, Clustering, Feature Engineering, Model Evaluation

Algorithms: Linear Regression, Logistic Regression, KNN, Decision Tree, Random Forest, XGBoost, Naive Bayes

AI & Deep Learning: Artificial Intelligence, Deep Learning, Neural Networks, Natural Language Processing (NLP), Generative AI, Large Language Models (LLMs), Prompt Engineering, RAG

Libraries & Tools: NumPy, Pandas, Matplotlib, Scikit-learn, Streamlit, Jupyter Notebook, Google Colab, Git, GitHub

Projects

Autism Prediction Machine Learning Project

- Developed an end-to-end Machine Learning solution for autism prediction.
- Performed data preprocessing, feature engineering, model training, evaluation, and prediction.
- Built an interactive prediction interface using Streamlit.
- **GitHub:** NTI-Machine-Learning-Final-Project

Tic-Tac-Toe AI

- Developed an AI-powered Tic-Tac-Toe game using Python and Tkinter.
- Implemented the Minimax algorithm for intelligent gameplay.

Certifications & Training

- **Artificial Intelligence (90 hrs.)** — Information Technology Institute (ITI/NTI), 2025.
- **NVIDIA DLI Summer Training Program: Generative AI (Beginner Level) (35 hrs.)** — Information Technology Institute (ITI), 2026.
- **AI for All: From Basics to GenAI Practice** — NVIDIA, 2026.
- **Generative AI Explained** — NVIDIA DLI / ITI, 2026.
- **Building LLM Applications With Prompt Engineering** — NVIDIA, 2026.
- **Augment Your LLM Using RAG** — NVIDIA DLI / ITI, 2026.
- **Getting Started with Deep Learning** — NVIDIA, 2025.
- **Artificial Intelligence Fundamentals** — IBM SkillsBuild, 2026.
- **AWS AI Practitioner Challenge** — Udacity / AWS AI & ML Scholars Program.
- **Google Data Analytics Professional Certificate** — Google / Coursera, 2026.
- **AI Beginner** — Ministry of Communications and Information Technology (MCIT), delivered by Fast Lane, 2026.
- **Introduction in Artificial Intelligence** — Edraak, 2026.
- **Artificial Intelligence Ambassadors Program** — NTI in collaboration with ESEA.
- **Python Programming Basics** — Mahara-Tech / ITI, 2026.
- **Introduction to Deep Learning** — Mahara-Tech / ITI, 2026.
- **CCNA: Introduction to Networks** — Cisco Networking Academy / EELU, 2025.
- **Build with AI: MASR Edition** — Google for Developers & ITI.

Relevant Training Topics

- Machine Learning: Probability and Statistics, Linear Algebra, Numerical Optimization, Data Preparation and Exploration.
- Deep Learning: Neural Networks, Deep Learning Fundamentals and practical applications.
- Generative AI: Prompt Engineering, LLM Applications, Retrieval-Augmented Generation (RAG), and GenAI fundamentals.
